The 2014 “Beijing Roundtable” is a small-size half-day workshop. Its aim is this: to have an in-depth critical examination of how, through constructively engaging other relevant resources, Mohist logical thought can jointly contribute to the development of contemporary philosophy concerning the basic principles of logic, reasoning and argumentation, semantic-syntactic structure, truth concern, reference, the relation between the semantic and the pragmatic, etc. The Beijing Roundtable workshop/symposium series has emphasized in-depth critical discussion on well-prepared research fruits on target issues. At this 2014 workshop, a number of scholars will present their recent research results on the theme.

Any interested ISCWP members and other colleagues are welcome to participate in this workshop. For further information concerning host organization, contact Prof. Linhe Han (hanlinhe@pku.edu.cn), the Host representative; for its academic coordination, contact Bo Mou (bo.mou@sjsu.edu).
